CELEBRATING 20 YEARS OF ECDL FOUNDATION

ECDL Foundation turns 20 in 2017, and they will be marking the occasion in style with some highlights from their history that celebrate the impact ECDL has had over the past two decades. Since their start as a small project funded by the EU's ESPRIT research programme in 1997, they have grown to see almost 15 million candidates in over 100 countries around the world.

People have used ECDL to build skills that have transformed their lives, from helping prepare people with learning difficulties for employment and independence in Zimbabwe, to supporting the integration of refugees in Austria, ECDL has achieved a lot! More on the 20th anniversary is [available here](#)
